BABY BOOM

Well folks, it's been another long and interesting year for the breed. I haven't had any breeding information from Lloyd Hass as of yet so these numbers do not include his animals. We had fourteen mares bred with four that absorbed or didn't "take".

Of the remaining 10 mares, two aborted early (one foal sex unknown and one foal a filly). The eight viable foals are: six colts and 2 fillies. Unfortunately, the colt (Warrior) born at Brian McGowan's was positioned wrong in the womb and has a little problem. We have managed to locate a place for him to go to when he is weaned to see how he develops.

Here are the remaining stats on the rest of the new arrivals.

SHAMAN "spiritual healer?"
