The Pony Express

Information Needed!

The following pages are the listings for the known Lac La Croix Indian Ponies. The purpose of tracking them in this manner is to establish any breeding and/or foaling patterns, sex-related matings etc. It's intent is to be used as a research and learning tool. To date, we have records of two male lines and seven female lines.

I am asking all those involved in this breed, past and present, that if anybody knows of any information on any of their ponies or other ponies that is missing, please send that information in. I am particularly looking for aborted or non-viable foals. If you recall a pony that was born but didn't survive ~ we want to hear about it.

One of the things we are trying to find out if this breed has a higher than average, or merely average, rate of non-viable foals. Another is, of course, to have as complete a listing as possible. If anybody out there knows of the location of a LLCIP, even if it is gelded, we would like to contact those people and invite them to be part of the growing number of people dedicated to this breed. The more people we get involved the faster and higher our success rate will be.

The legend for the following lists is as follows:

BLACK BOLD – breeding female **BLUE BOLD** – breeding male **LT GREEN** – not in breeding program

Each successive generation is indented one indent under their sire's name. (For example: on the male list Wausemo is the son of Keokuk. Early is the son of Wausemo and grandson of Keokuk. Ishkwane is the son of Westly, who is the son of Wausemo, who is the son of Keokuk OR great-grandson of Keokuk)

Population by Male Lines

KEOKUK – black – 1980 [sterile]

(f) **CHE CHE** – grey – 1986

(f) **GINSENG** – red dun – 1986?

(m) **WAUSEMO** – grey – 1987 [killed]

(f) **TALICO CASSEOPIA** – grulla – 1989 (barren)

(m) **EARLY** – black – 1989?

(f) **PENNY** – grulla – 1989

(f) **SUNDOWN** – red – 1990

(f) **TERRA COTTA** – red dun – 1992

(m) **WESTLY** – sorrel – 1992

(f) **MORNING GLORY** – sorrel – 1996

(?) **ABORTED FETUS** – 2001 (cause unknown)

(f) **WAAWAASHKESHI** – bay - 2001

(m) **ISHKWANE** – grullo – 2002

(?) **ABORTED FETUS** – colour? – 2003 (west Nile vacc)

(f) **NABAGASHK** – grulla? – 2004 (collicked 18 days)

(f) **NISKASIKA** – dun? – 2005

(m) **AHNEEN** – dun – 1992

(m) **WOOBANG** – dun – 1994

(f) **SUNSHINE** – dun - 1999

(f) **FILLY** – dun – 1999 (died after birth)

(m) **SHAMAN** – black – 2003

(m) **TATONKA** – grullo – 2004?

(f) **BESIKA** – bay – 2004 (sleepy foal disease)
